This .Functional assessment of the ATP-binding cassette ABC transporter ABCG2 (BCRP) reveals that breast cancer resistance protein mediates resistance to mitoxantrone in the triple negative breast cancer cell line MDA-MB-231. The ATP-binding cassette, ABC transporter, ABCG2 (BCRP) is overexpressed in a number of drug-resistant cell lines and xenografts. A further aim of the present study was to determine whether ABCG2 could be a major factor determining resistance to a widely used antitumour drug, mitoxantrone, in a triple negative breast cancer cell line. Using a shRNA system that was used to knock down the cellular expression of ABCG2, we found that ABCG2 mediates resistance to mitoxantrone in the MDA-MB-231 f678ea9f9e
